SUMMARY

Product Leader with 8+ years of experience driving digital transformation, personalization, customer experience optimization, and platform modernization across retail and consumer industries. Proven track record defining product vision, owning roadmaps, and leading cross-functional teams through product discovery, development, launch, and optimization. Experienced translating customer insights, analytics, and business strategy into scalable digital experiences that improve engagement, operational efficiency, and business outcomes. Skilled at partnering with engineering, UX, analytics, and business stakeholders to deliver customer-centric products and innovative experiences in fast-paced environments.

EXPERIENCE

Senior Managing Consultant, Digital Product Engineering | IBM | October 2017 – Present

- Led product strategy and roadmap development across 10+ digital transformation initiatives spanning retail, luxury retail, consumer products, and automotive sectors.
- Partnered with executive stakeholders to identify customer needs, define product vision, and translate business objectives into scalable digital solutions.
- Collaborated with engineering, UX, analytics, and business teams to design, build, and launch customer-centric digital experiences that improved engagement and operational efficiency.
- Drove product discovery, prioritization, and roadmap planning while balancing customer needs, business goals, and technical constraints.
- Established KPI frameworks and analytics reporting to measure adoption, customer impact, platform performance, and business outcomes.

Product Owner, Personalization and Digital Experience | IBM (Client: Global Beauty Retailer) | September 2025 – April 2026

- Owned product roadmap and prioritization for personalization capabilities supporting millions of customer interactions across enterprise digital channels.
- Led migration from AB Tasty and custom-built personalization tooling to Adobe Target, enabling scalable experimentation, audience targeting, and customer experience optimization.
- Leveraged customer behavior data, experimentation insights, and business priorities to inform product decisions and personalization strategies.
- Defined success metrics and performance indicators to measure customer engagement, platform adoption, and business impact.

Product Owner, Point-of-Service | IBM (Client: Automotive Retailer) | August 2022 – February 2026

- Owned product strategy, roadmap, and feature prioritization for a customer and vehicle management platform supporting customer interactions across more than 1,000 retail locations.
- Redesigned end-to-end customer and operational workflows to improve user experience, reduce friction, and increase execution consistency across retail operations.
- Partnered with engineering, business, and operations stakeholders to deliver scalable platform enhancements aligned to customer and business needs.
- Defined KPIs and success metrics to measure adoption, operational performance, and business impact.

UX Researcher / Product Strategy Consultant | IBM (Client: Global Luxury Retailer) | February 2025 – March 2025

- Conducted stakeholder interviews, discovery workshops, and user research activities to identify customer needs, operational pain points, and product opportunities.
- Synthesized qualitative insights into actionable product recommendations and future-state experience strategies.
- Developed customer journey and experience recommendations to support long-term product vision and investment planning.
- Presented findings and strategic recommendations to client leadership to inform product and business decisions.
